

## GSMS-PH5 QUICKSTART GUIDE

**To use the unit a SIM-card is required.**

1. Make sure the SIM-card has balance and that the PIN-lock is disabled.
2. With the PH5 unplugged connect the connection cable (1) using the 3M™ Scotchlocks (2) as per the separate supplied wiring diagram.
3. Install the SIM-card first then plug in the PH5 to the connection cable.

4. Wait a couple of minutes for the red "STA" led to turn off.  
If it starts to blink something is wrong, refer to complete manual.
5. Send an SMS to the unit containing "PH0000CHECK", wait for a reply.
6. Grab the app from Appstore or Google play and add the unit.

7. In the app go "Settings" > "Select profile" > "Create" and fill in the details.

Profile name:	What you want to call the profile
Password for unit:	If unit is new use "0000" = four zero's
Phone number to unit:	Phone number to installed SIM-card
Select unit:	Select "GSMS-PH5"

8. Download the complete manual. Save on your computer or a USB-stick!
